Safety Council**

**RESPONSIBLE CARE®**  
OUR COMMITMENT TO SUSTAINABILITY

***Believe and Live It!***

**Did you know...**

- We often take our hands and fingers for granted, yet we are so dependent on full use of them to achieve routine daily tasks. Have you ever thought about how important your hands are... and what life would be like if you did not have one or both of them?
- Hand Injuries can occur from:
  - Pinch Points
  - Hot Surfaces
  - Rotating Machine Surfaces
  - Automated Machinery
  - Sharp Edges on Equipment
  - Jewelry and Loose Clothing

**We must stay aware of hazards that can harm  
our hands and take actions to protect them!**
